

Progressive Democrats OF MASSACHUSETTS

Progressive Democrats of Massachusetts is following in the proud tradition of labor, community, and civil rights organizing in America. Committed to working with and within the Democratic party, PDM promotes progressive reform in Massachusetts. We believe that government should be an expression of the highest aspirations of people to make better lives for themselves, for their children, and for their communities.

We invite you to join in a campaign to revive and reinvigorate the Democratic Party as the champion of families and as the engine of social, economic, and environmental justice. We will engage whole communities and establish chapters of Progressive Democrats – all across the state. We will back candidates who embrace a progressive reform agenda – and empower people with the knowledge, the skills, and the solidarity necessary to elect progressive Democrats to local and state office.
